

2ND INTERNATIONAL CONFERENCE ON SPORTS ENGINEERING

VENUE: The Umed
Jodhpur, Rajasthan INDIA

3-5 March 2022

PRE-CONFERENCE WORKSHOP

TIME: 3:00 pm to 5:30 pm

DATE: 3rd March 2022

Topic: Analyzing sports performance and fitness

WHY TO ATTEND THE WORKSHOP

Whether you're working at the grassroots or high-performance level, it is important for you to have a knowledge of technologies which have impacted the way of training athletes in sports. This workshop is a hands-on approach in sports training for the participants to know how to track and assess the performance and fitness of an athlete. This is specifically designed for all sport practitioners, Science & Physical education teachers, Students, Coaches, and also for Engineers who would like to apply their engineering & science knowledge in sports training.

RESOURCE PERSONS:

The faculty from the Sports Motion Analyzing Equipment Domain and the Sports Data Analysts who apply analyzing techniques to track and assess the performance in sports are the resource persons of the workshop.

The workshop will cover:

- Sports data and performance analysis
- Fitness assessment
- Motion & Force capture systems
- Practical demonstration

Dr. Klaus Bartonietz, Coach of Neeraj Chopra is joining the workshop to share his expertise for sports performance
